

## QUALITY POLICY

Polaris Marine has been providing services to the maritime industry for over 30 years in sectors including offshore and inshore towage, marine construction support, salvages, vessel supply and manning whilst maintaining a well-established Quality Management System and high professional standards.

Polaris Marine aims to:

- Comply with all statutory obligations, standards, specifications and codes of practice relevant to quality management.
- Maintain, monitor, review, audit and continually improve the Quality Management System consistent with the certification requirements of ISO 9001.
- Provide sufficient and suitable resources to implement and maintain the Polaris Marine Quality Management System.
- Educate and train our people in order to improve their skills, awareness and knowledge of quality issues and practices.
- Establish, review and communicate performance measures and take action to improve outcomes.
- Communicate to the organisation the importance of meeting customer as well as statutory and regulatory requirements.
- Review this policy every 2 years.

*As the Managing Director of Polaris Marine Pty Ltd, I am personally committed to the development, implementation and improvement of the Polaris Marine Quality Management System and practices. To assist me in this commitment Polaris Marine Management and Staff have been given the authority to identify, report, investigate and resolve all non-conformities and take action to prevent reoccurrence.*
